## RoHS Declaration of Conformity

Through our certified environmental management system (ISO 14001), all legal regulations are regularly checked and reconciled within the company. This appropriate examination allows us to confirm the conformity regarding EU Directive 2011/65/EU and possible extensions, according to the current state of knowledge, for our products.

These products meet the current requirements for all designated materials max. 0,1 % by weight in homogeneous material for:

Lead  
 Mercury  
 Hexavalent chromium (Cr6+)  
 Polybrominated biphenyl (PBB)  
 Polybrominated diphenyl ether (PBDE) < 0,1 % by weight  
 diphthalate (DEHP)  
 butylbenzyl phthalate (BBP)  
 dibutyl phthalate (DBP)  
 diisobutyl phthalate (DIBP)  
 cadmium < 0,01 % by weight

Exception according to Annex III of the Directive (products with brass content or power elements):  
 6c Copper alloy with a mass content of up to 4 % lead
